National & regional system - National & regional plan

National contingency plan

Approved	Drafted	Under preparation	None	Supported by REMPEC	Date
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	31/07/2008
Test type		Communication/Full scale exercise			
Test frequency		yearly at national & county level/1 yearly at country level and 1 every 3 year at national level			
Relevant national legislation adopting the plan		Adopted by the Government of the Republic of Croatia on the basis of the Environment Protection Law (OG 110/2-07, article 50, paragraph 4) and the Maritime Code (OG 181/04, 76/07, article 63, paragraph 2)			
The plan maintenance		Headquarters for the NCP implementation			
Implementing the plan		Overall responsibility at the State level: Headquarters for the NCP implementation (designated by the Government of the Republic of Croatia among representatives of state administrative bodies responsible for sea, environmental protection, nature protection, interior affairs, water management, foreign affairs, finances, protection and rescue, defence and search and rescue at sea MRCC)			

Subregional Agreements

National & regional system - response strategy

Monitoring and Evaluation

Satellite image	<input checked="" type="checkbox"/> Prevention: satellite monitoring (article 32)
Aerial surveillance	<input checked="" type="checkbox"/> Prevention: observation/monitoring from the air (art. 32) Response: aerial surveillance (article 74)
Naval surveillance	<input checked="" type="checkbox"/> Prevention: observation/monitoring by maritime patrols (article 32) Response: from vessels (if aerial surveillance is not possible) (article 74)
Forecasting models	Not specifically mentioned in the Plan, but the elaboration of the assessment of risk and sensitivity of the area covered by the NCP will be prepared with a view to achieving efficiency in the implementation of NCP in relation to potential marine pollution and to determining priorities regarding protection and/or restoration of the marine environment and selecting the most appropriate measures for preventing and responding to marine pollution.

Response at sea

Use of dispersant	<input checked="" type="checkbox"/> Yes, to the extent of available technical and human capacities.
Aerial surveillance	<input checked="" type="checkbox"/> Articles 77 - 81 of the NCP define the use of dispersants. A flowchart describing the use of dispersants is given in Annex III of the NCP while the List of dispersants approved for use in the Republic of Croatia and in European Union Member States is given in the Annex IV..
Related Legislation	Not specifically mentioned in the NCP.
Delimitation zones for the use of dispersants	<input checked="" type="checkbox"/> Article 81 defines the areas in which the use of dispersants is prohibited. These are specified/listed in Annexes V (point 1) and VI of the NCP. In addition to the areas listed in these Annexes the use of dispersants is also prohibited in "spawning areas and in areas in which the possibility of reflux of the sea water into freshwater streams exists due to tidal action, winds or lowering of water levels in such streams".
Authority in charge of authorisation identified	HQ Commander
Dispersant testing procedures	Not specifically defined in the NCP.
List of approved products	<input checked="" type="checkbox"/> The list of dispersants that "could be used in the Republic of Croatia and in the EU member States" is given in Annex IV of the Plan.
List of competent laboratories authorized	Not specifically defined in the NCP.
Containment and recovery	<input checked="" type="checkbox"/> Listed in the NCP as a primary response option in Article 77 and shown in the decision tree in Annex I to the NCP. Available equipment indicated and listed in section 5 of the present 'Country Profile'.
In situ burning	Not envisaged in the NCP as a response option.

Shoreline protection and cleanup

Shoreline protection	<input checked="" type="checkbox"/> Operations for cleaning up of the shoreline are envisaged in the NCP (articles 82-84). Clean up activities are divided in preparatory activities and clean up operations (depending on the type of the coast)
-----------------------------	---

Shoreline cleanup	<input checked="" type="checkbox"/>
--------------------------	-------------------------------------

Communication

Operation activities	<input checked="" type="checkbox"/> NCP -Articles 16 (MRCC tasks), 35 (use of radio communication network), 39 (definition of VHF channels), 41-46 (alerting) and Annex I.
-----------------------------	--

Government/Industry relation	Not specifically addressed in the NCP
-------------------------------------	---------------------------------------

Public relation	<input checked="" type="checkbox"/> NCP - Chapter 9 (article 113)
------------------------	---

Media relation	NCP - Chapter 9 (article 113)
-----------------------	-------------------------------

Waste management

National policy regarding oily waste	<input checked="" type="checkbox"/> The NCP (articles 13 states that the task of the Headquarters is also making a decision on the methods and place for the disposal of recovered material while article 83 states that prior to the commencement of the shoreline clean-up operations the places for temporary storage and final disposal (one of preparatory activities) have to be defined and assigns the responsibility for conducting preparatory activities to the relevant "HQs for protection and rescue" within the local or regional authorities' to the Ministry responsible for environmental protection and the Ministry responsible for sea. Waste management is regulated by the Waste Act (OG 178/04, 111/06, 60/08) and other sublegal acts regarding waste categorisation, classification and management enacted according to the Waste Act
---	---

Treatment/disposal facilities/solutions	<input checked="" type="checkbox"/> NCP does not predetermine sites for oily wastes (considered as hazardous waste) storage/treatment/disposal but all wastes have to be disposed according to the existing legal framework related to waste management.
--	--

Experts

Integration of international experts in the coordination body	<input checked="" type="checkbox"/> Article 14 of the NCP states that the Headquarters may also request support and expert advices from experts. Since article 14 does not specify 'experts' (national or international) it is considered that international experts could also be included in the work of the Headquarters. The list of such experts should be available at the HQ secretariat.
--	--

Claims

Claims legal basis at national level	<input checked="" type="checkbox"/> Maritime Code (OG 181/04, 76/07)
Claims included in the contingency plan	<input checked="" type="checkbox"/> Chapter 8 (articles 111 and 112)
National structure dealing with claims	<input checked="" type="checkbox"/> Ministry responsible for maritime affairs (Ministry of Sea, Transport and Infrastructure) deals with claims.

Volunteers management

Volunteers management considered in the plan	Article 30 of the NCP envisages the engagement of volunteers in shoreline clean up operations. Their management is not specifically defined except that they could be involved in clean up operation upon order of the Headquarters and County operational centres (COCs).
---	--

Faune protection

Measures for faune protection (Protected species and other marine fauna)	<input checked="" type="checkbox"/> NCP does not specifically indicate measures for fauna protection, but elaboration of sensitivity maps is defined as one of measures for preventing and restricting sea pollution and it will include overview of all protected natural resources (including among others and protected species). Further on, in the implementation of response measures, NCP determines priority areas for NCP implementation which includes protected sea areas (articles 81 and 94). (Click on the link to access the Sea Alarm Country Profile sheet providing information on wildlife protection in this country).

Trans-Boundary arrangements

Provider

To whom the request has to be addressed

Full name of the institution	Ministry of Sea, Transport and Infrastructure (MSTI)
Department or position	Headquarters of the NCP
Address (number, street, city)	Prisavlje 14, 10000 Zagreb
Telephone (24 hours a day)	+385 (51) 91 55
Telefax	+385 (51) 321 254 and +385 (1) 616 90 69
Working hours	MRCC – 24 hours a day MSTI- 8.00 – 16.00
E-mail	

Boundary

To whom the request has to be addressed

Financial conditions for expert services	
Restrictions (visa, etc.) concerning travel to any Mediterranean country? If yes, please indicate which countries	For Croatian citizens visa is required for travelling to Libya, Syria, Egypt and Algeria
Financial and other conditions (transportation, etc.) for making the equipment or product available to a requesting party	
Location of equipment and products and nearest port or airport (city/port, city/airport)	

Training and follow-up

REMPEC Focal points meeting

Year	Representative	Ministry/Department/Division
2007	Ms Nevia Kruzic, Head of the Department for Sea Protection	Ministry of Environmental Protection, Physical Planning and Construction
2000	Mr Ranko Dujmovic, Director	Missing
2003	Ms Sonja Stiglic	JANAF – Adriatic Pipeline
2003	Mr Milivoj Andraka	MMinistry of Sea, Transport and Infrastructure ,Harbour Master´s Office Rijeka
2003	Mr. Nenad Mikulic, Environmental Protection Division	Ministry of Environmental Protection, Physical Planning and Construction
2000	Mr Andrija Randic , Head of the Marine and Coastal Protection Unit	Ministry of Environmental Protection, Physical Planning and Construction
2000	Mr .Pero Bojic, Director	Missing
2009	Ms. Nevia Kruzic, Head of Department for Sea and Coast Protection	Ministry of Environmental Protection, Physical Planning and Construction
2009	Ms. Maya Markovcic-Kostelac, Head of International Legal Department	Ministry of Sea, Transport and Infrastructure
2009	Mr. Nenad Mladineo, Assistant Professor	University of Split
2009	Mr. Zeljko Bradaric, Assistant Director	Hydrographic Institute
2007	Captain Darko Glazarr, Harbour Master	Ministry of Sea, Tourism, Traffic and Development
2011	Ms. Nevia Kruzic, Head of Department for Sea Protection	Ministry of Environmental Protection, Physical Planning and Construction Division for Atmosphere and Waste Management
2011	Captain Darko Glazar, Harbour Master	Ministry of Sea, Transport and Infrastructure Safety of Navigation, Marine Environment and Inland Waters Protection Authority

Regional activities

Date	Activity name	Country participant name
11/2008	Sub-Regional Training Course on Marine Emergencies -Izola, Slovenia 11-13 November 2008	Mr. Edo Sarunic, Croatia
11/2007	Regional Seminar on Illicit Discharges from Ships and Prosecution of Offenders, Marseille, France, 27-30 November 2007 (MEDEXPO 2007)	Captain Darko Glazar, Croatia
10/2005	Regional Seminar on the use of Remote Sensing in Oil Pollution Control, Nicosia, Cyprus, 17-20 October 2005 (MEDEXPOL 2005)	Ms. Dubravka Lulic Krivic, Captain Darko Glazar, Croatia
05/2009	Regional Government and Industry Workshop on Cooperation, Preparedness for and Response to Oil Spills in the Mediterranean Sea, 11-12 May 2009, Marseille, France.	Dr. Darko GLazar, Croatia
12/2004	Regional Alert Exercise - MEDIPOLEX 2004 organized in close collaboration with the National Focal Point of Cyprus, held on 7-8 December 2004	All Contracting Parties attended

Date	Activity name	Country participant name
10/2003	MEDIPOl 2003 - European Workshop on Satellite Imagery and Illicit oil spills in Europe in the Mediterranean and field Activities in rognac-Marseille, Toulon, France 2-4 October 2003	Mr. Milivoj Andracka Mr. Zlatko Zauhar
10/2002	MEDIPOl 2002- Regional Seminar on response to Oil nad Chemical Spills for Government Administrators and Senior Managers, St Geroges's Bay, Malta, 29 October - 2 November 2002	Ms. Anamarija Matak, Croatia
12/2001	MEDEXPOL 2001 - Regional Training Course on Prevention, Preparedness and Response to accidents involving hazardous substances at ship -shore interface, Genoa, Italy, 10-14 December 2009	Ms. Ljiljana Dravec, Croatia
11/2000	MEDEXPOL 2000 – Regional Seminar for Government Administrators and Senior Managers (on Accidental Marine Pollution preparedness and response), Naples, Italy, 6-10 November 2000	Mr. Tomo Krilic, Croatia
03/2000	MEDEXPOL 99/2 Regional Training Course on New Techniques for Shoreline Pollution (Oil/Chemical) Clean-up - Brest, France, 21-25 March 2000	Mr. Zlatko Zauhar, Mr. Zlatko Simonovic, Croatia

National activities

Date	Activity name
07/2008	Elaboration and adoption of the new National Contingency Plan for Accidental Marine Pollutions (2008)
01/2008	Ratification of the Agreement on the Sub-Regional Contingency Plan for Prevention of, Preparedness for and Response to Major Marine Pollution Incidents in the Adriatic Sea

Prevention

Sanctions for violations

The Administration has the necessary national laws in force to ensure the provision of sanctions of adequate severity to discourage violation of international instruments to which the State is a Party	<input checked="" type="checkbox"/>
If yes, how are violations followed up and what are the sanctions (for example, type of fines) imposed?	Inspection procedure is described in Ordinance for carrying out inspection, after inspection if there is a violation of the maritime legislation inspector must or should issued (depending of the case) penalty, offence order or initiation of the offence procedure, to council for offences in concerned Harbor master office. Sanction regulations are prescribed in Maritime Law, Law on the gradual phasing-out of single hull oil tankers, Law on safety protection of merchant ships and international ports in the last part – Offences.

Ship inspections

Periodic inspections of own ships

The Administration has the necessary national laws in force to provide for ship inspections, and detaining, to ensure compliance with international maritime safety and pollution prevention standards, to which the State is a Party	<input type="checkbox"/>
---	--------------------------

Periodic inspections of own ships

If yes, how many number of ships are inspected annually and how many of these have resulted in detaining the ship?

Number of inspected foreign ships in Croatian ports in last three year period is as follows: 2007 - 362 det. 20
2008 - 269 det. 35 2009- 273 det. 22

Number of ships detained by PSC in the last 3 years

Number of ships detained under the Med MoU

3

Number of ships detained under the Paris MoU

Number of ships detained under the Tokyo MoU

Number of ships detained under the USCG

4

Port State Control Inspections

Port State Control Inspections are carried out in your ports

☒

If yes, how many PSC inspections are carried out annually?

Approximately 370

Delegation of Authority to Recognised Organizations (ROs)

The Administration has the necessary national laws, including necessary Agreements, in force to delegate authority to ROs

☒

What procedures are in place to monitor the work of the ROs?

According Quality system we have procedure for monitoring RO in Statutory certification process for Croatian national ships

Provide list of ROs to whom delegation of authority is granted through such an Agreement.

Based on national Law, Croatian Register of Shipping (CRS) is RO until Croatia will become a Member State of the European Union.

Casualty investigations

The Administration has the necessary national laws in force to carry out the required casualty investigations

☒

Number of reported groundings in the last 3 years

2

Number of reported collisions in the last 3 years

0

Number of reported casualties resulting in pollution incidents in the last 3 years

0

MARPOL implementation**MARPOL Infringements**

The Administration has the necessary national laws in force to ensure the provision of sanctions of adequate severity with respect to MARPOL infringements

☒

If yes, how are infringements followed up and what are the sanctions imposed?

Procedures for investigation under Marpol convention as carried out by PSC Officer, are followed as prescribed in Annex 2 of the Amendment PMOU. Violations of the Marpol requirements, if any, are prescribed in Law of the demesne and seaports, articles 116 and 114; maximum fine is app. 150.000 €, and 15.000€, respectively.

Surveillance of coastal waters

Surveillance of the waters under your jurisdiction is carried out ☒

If yes, what are the methods and resources available to carry out such surveillance?

The surveillance of waters is monitored by 17 AIS basic stations along the coast, for control of maritime traffic. Monitoring area is expanded to internal waters and territorial sea including protected fishing zone.
