Test type

Communication/Full scale exercise

Test frequency

yearly at national & county level/1 yearly at country level and 1 every 3 year at national level

Relevant national legislation adopting the plan

Adopted by the Government of the Republic of Croatia on the basis of the Environment Protection Law (OG 110/2-07, article 50, paragraph 4) and the Maritime Code (OG 181/04, 76/07, article 63, paragraph 2)

The plan maintenance

Headquarters for the NCP implementation

Implementing the plan

Overall responsibility at the State level: Headquarters for the NCP implementation (designated by the Government of the Republic of Croatia among representatives of state administrative bodies responsible for sea, environmental protection, nature protection, interior affairs, water management, foreign affairs, finances, protection and rescue, defence and search and rescue at sea MRCC)

Subregional Agreements
National & regional system - response strategy

Monitoring and Evaluation

<table>
<thead>
<tr>
<th>Satellite image</th>
<th>Prevention: satellite monitoring (article 32)</th>

<td>Naval surveillance</td>
<td>Prevention: observation/monitoring by maritime patrols (article 32) Response: from vessels (if aerial surveillance is not possible) (article 74)</td>
</tr>
<tr>
<td>Forecasting models</td>
<td>Not specifically mentioned in the Plan, but the elaboration of the assessment of risk and sensitivity of the area covered by the NCP will be prepared with a view to achieving efficiency in the implementation of NCP in relation to potential marine pollution and to determining priorities regarding protection and/or restoration of the marine environment and selecting the most appropriate measures for preventing and responding to marine pollution.</td>
</tr>
</tbody>
</table>

Response at sea

<table>
<thead>
<tr>
<th>Use of dispersant</th>
<th>Yes, to the extent of available technical and human capacities.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aerial surveillance</td>
<td>Articles 77 - 81 of the NCP define the use of dispersants. A flowchart describing the use of dispersants is given in Annex III of the NCP while the List of dispersants approved for use in the Republic of Croatia and in European Union Member States is given in the Annex IV.</td>
</tr>
</tbody>
</table>

Related Legislation

| Delimitation zones for the use of dispersants | Article 81 defines the areas in which the use of dispersants is prohibited. These are specified/listed in Annexes V (point 1) and VI of the NCP. In addition to the areas listed in these Annexes the use of dispersants is also prohibited in "spawning areas and in areas in which the possibility of reflux of the sea water into freshwater streams exists due to tidal action, winds or lowering of water levels in such streams". |
| Authority in charge of authorisation identified | HQ Commander |
| Dispersant testing procedures | Not specifically defined in the NCP. |
| List of approved products | The list of dispersants that “could be used in the Republic of Croatia and in the EU member States” is given in Annex IV of the Plan. |
| List of competent laboratories authorized | Not specifically defined in the NCP. |
| Containment and recovery | Listed in the NCP as a primary response option in Article 77 and shown in the decision tree in Annex I to the NCP. Available equipment indicated and listed in section 5 of the present 'Country Profile'. |
| In situ burning | Not envisaged in the NCP as a response option. |

Shoreline protection and cleanup
<table>
<thead>
<tr>
<th><strong>Shoreline protection</strong></th>
<th>✔ Operations for cleaning up of the shoreline are envisaged in the NCP (articles 82-84). Clean up activities are devided in preparatory activities and clean up operations (depending on the type of the coast)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Shoreline cleanup</strong></td>
<td>✔</td>
</tr>
<tr>
<td><strong>Comunication</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Operation activities</strong></td>
<td>✔ NCP -Articles 16 (MRCC tasks), 35 (use of radio communication network), 39 (definition of VHF channels), 41-46 (alerting) and Annex I.</td>
</tr>
<tr>
<td><strong>Government/Industry relation</strong></td>
<td>Not specifically addressed in the NCP</td>
</tr>
<tr>
<td><strong>Public relation</strong></td>
<td>✔ NCP - Chapter 9 (article 113)</td>
</tr>
<tr>
<td><strong>Media relation</strong></td>
<td>NCP - Chapter 9 (article 113)</td>
</tr>
<tr>
<td><strong>Waste management</strong></td>
<td></td>
</tr>
<tr>
<td><strong>National policy regarding oily waste</strong></td>
<td>✔ The NCP (articles 13 states that the task of the Headquarters is also making a decision on the methods and place for the disposal of recovered material while article 83 states that prior to the commencement of the shoreline clean-up operations the places for temporary storage and final disposal (one of preparatory activities) have to be defined and asigns the responsibility for conducting preparatory activities to the relevant “HQs for protection and rescue” within the local or regional authorities’ to the Ministry responsible for environmental protection and the Ministry responsible for sea. Waste management is regulated by the Waste Act (OG 178/04, 111/06, 60/08) and other sublegal acts regarding waste categorisation, classification and management enacted according to the Waste Act</td>
</tr>
<tr>
<td><strong>Treatment/disposal facilities/solutions</strong></td>
<td>✔ NCP does not predetermine sites for oily wastes (considered as hazardous waste) storage/treatment/disposal but all wastes have to be disposed according to the existing legal framework related to waste management.</td>
</tr>
<tr>
<td><strong>Experts</strong></td>
<td>✔ Article 14 of the NCP states that the Headquarters may also request support and expert advices from experts. Since article 14 does not specify ‘experts” (national or international) it is considered that international experts could also be included in the work of the Headquarters. The list of such experts should be available at the HQ secretariat.</td>
</tr>
</tbody>
</table>

**Claims**
| **Claims legal basis at national level** | ✓ Maritime Code (OG 181/04, 76/07) |
| **Claims included in the contingency plan** | ✓ Chapter 8 (articles 111 and 112) |
| **National structure dealing with claims** | ✓ Ministry responsible for maritime affairs (Ministry of Sea, Transport and Infrastructure) deals with claims. |

**Volunteers management**

| Volunteers management considered in the plan | Article 30 of the NCP envisages the engagement of volunteers in shoreline clean up operations. Their management is not specifically defined except that they could be involved in clean up operation upon order of the Headquarters and County operational centres (COCs). |

**Faune protection**

| Measures for faune protection (Protected species and other marine fauna) | ✓ NCP does not specifically indicate measures for fauna protection, but elaboration of sensitivity maps is defined as one of measures for preventing and restricting sea pollution and it will include overview of all protected natural resources (including among others and protected species). Further on, in the implementation of response measures, NCP determines priority areas for NCP implementation which includes protected sea areas (articles 81 and 94). |

Unapproved

Legal Instrument | Implementation Transposition of the international instrument in the national legislation
--- | ---
LC Protocol 1996 | 

Sanctions for violations

The Administration has the necessary national laws in force to ensure the provision of sanctions of adequate severity to discourage violation of international instruments to which the State is a Party

If yes, how are violations followed up and what are the sanctions (for example, type of fines) imposed?

Inspection procedure is described in Ordinance for carrying out inspection, after inspection if there is a violation of the maritime legislation inspector must or should issued (depending of the case) penalty, offence order or initiation of the offence procedure, to council for offences in concerned Harbor master office. Sanction regulations are prescribed in Maritime Law, Law on the gradual phasing-out of single hull oil tankers, Law on safety protection of merchant ships and international ports in the last part – Offences.

Ship inspections

Periodic inspections of own ships

The Administration has the necessary national laws in force to provide for ship inspections, and detaining, to ensure compliance with international maritime safety and pollution prevention standards, to which the State is a Party

If yes, how many number of ships are inspected annually and how many of these have resulted in detaining the ship?

Number of inspected foreign ships in Croatian ports in last three year period is a follows: 2007 - 362 det. 20 2008 - 269 det. 35 2009 - 273 det. 22
Number of ships detained by PSC in the last 3 years

| Number of ships detained under the Med MoU | 3 |
| Number of ships detained under the Paris MoU | |
| Number of ships detained under the Tokyo MoU | |
| Number of ships detained under the USCG | 4 |

Port State Control Inspections

Port State Control Inspections are carried out in your ports ☑

If yes, how many PSC inspections are carried out annually? Approximately 370

Delegation of Authority to Recognised Organizations (ROs)

The Administration has the necessary national laws, including necessary Agreements, in force to delegate authority to ROs ☑

What procedures are in place to monitor the work of the ROs? According Quality system we have procedure for monitoring RO in Statutory certification process for Croatian national ships

Provide list of ROs to whom delegation of authority is granted through such an Agreement. Based on national Law, Croatian Register of Shipping (CRS) is RO until Croatia will become a Member State of the European Union.

Casualty investigations

The Administration has the necessary national laws in force to carry out the required casualty investigations ☑

Number of reported groundings in the last 3 years 2
Number of reported collisions in the last 3 years 0
Number of reported casualties resulting in pollution incidents in the last 3 years 0

MARPOL implementation

MARPOL Infringements

The Administration has the necessary national laws in force to ensure the provision of sanctions of adequate severity with respect to MARPOL infringements ☑

If yes, how are infringements followed up and what are the sanctions imposed? Procedures for investigation under Marpol convention as carried out by PSC Officer, are followed as prescribed in Annex 2 of the Amendment PMOU. Violations of the Marpol requirements, if any, are prescribed in Law of the demesne and seaports, articles 116 and 114; maximum fine is app. 150.000 €, and 15.000€, respectively.
