

# OSRL

## Introduction and Overview

# About Us

Established since 1985. Over 39 years of experience in responding to oil spill incidents globally.

## Largest international industry funded cooperative

*OSRL is wholly owned by most of the environmentally responsible oil, gas and energy companies who represents the majority of global oil production.*

## Global integrated provider for surface response & subsea well source control services

*Members gain access to OSRL's full suite of expertise for their **response** and **preparedness** needs on a global basis*

Exxon Valdez - Alaska (1989)

Evoikos - Singapore (1997)

Montara - Australia (2009)

Macondo – Gulf of Mexico (2010)

# Our Global Footprint

13 Locations Worldwide
