# National & système régional - stratégie de lutte

## Contrôle et évaluation

|                              |   |
|------------------------------|---|
| <b>Image satellite</b>       | <input checked="" type="checkbox"/> Prevention: satellite monitoring (article 32)   |
| <b>Surveillance aérienne</b> | <input checked="" type="checkbox"/> Prevention: observation/monitoring from the air (art. 32) Response: aerial surveillance (article 74)  |
| <b>Surveillance navale</b>   | <input checked="" type="checkbox"/> Prevention: observation/monitoring by maritime patrols (article 32) Response: from vessels (if aerial surveillance is not possible) (article 74)  |
| <b>Modèles de prédiction</b> | Not specifically mentioned in the Plan, but the elaboration of the assessment of risk and sensitivity of the area covered by the NCP will be prepared with a view to achieving efficiency in the implementation of NCP in relation to potential marine pollution and to determining priorities regarding protection and/or restoration of the marine environment and selecting the most appropriate measures for preventing and responding to marine pollution. |

## Lutte en mer

|   |   |
|---|---|
| <b>Utilisation de dispersant</b>                                | <input checked="" type="checkbox"/> Yes, to the extent of available technical and human capacities.   |
| <b>Surveillance aérienne</b>                                    | <input checked="" type="checkbox"/> Articles 77 - 81 of the NCP define the use of dispersants. A flowchart describing the use of dispersants is given in Annex III of the NCP while the List of dispersants approved for use in the Republic of Croatia and in European Union Member States is given in the Annex IV..  |
| <b>Législation connexe</b>                                      | Not specifically mentioned in the NCP.  |
| <b>Délimitation des zones d'utilisation des dispersants</b>     | <input checked="" type="checkbox"/> Article 81 defines the areas in which the use of dispersants is prohibited. These are specified/listed in Annexes V (point 1) and VI of the NCP. In addition to the areas listed in these Annexes the use of dispersants is also prohibited in "spawning areas and in areas in which the possibility of reflux of the sea water into freshwater streams exists due to tidal action, winds or lowering of water levels in such streams". |
| <b>Identification de l'autorité en charge de l'autorisation</b> | HQ Commander  |
| <b>Procédures de test des dispersants</b>                       | Not specifically defined in the NCP.  |
| <b>Liste des produits approuvés</b>                             | <input checked="" type="checkbox"/> The list of dispersants that "could be used in the Republic of Croatia and in the EU member States" is given in Annex IV of the Plan.   |
| <b>Liste des laboratoires compétents autorisés</b>              | Not specifically defined in the NCP.  |
| <b>Confinement et récupération</b>                              | <input checked="" type="checkbox"/> Listed in the NCP as a primary response option in Article 77 and shown in the decision tree in Annex I to the NCP. Available equipment indicated and listed in section 5 of the present 'Country Profile'.  |
| <b>Brûlage (In situ burning)</b>                                | Not envisaged in the NCP as a response option.  |

## Protection et nettoyage du littoral

|                               |   |
|-------------------------------|---|
| <b>Protection du littoral</b> | <input checked="" type="checkbox"/> Operations for cleaning up of the shoreline are envisaged in the NCP (articles 82-84). Clean up activities are divided in preparatory activities and clean up operations (depending on the type of the coast) |
|-------------------------------|---|

|                              |                                     |
|------------------------------|-------------------------------------|
| <b>Nettoyage du littoral</b> | <input checked="" type="checkbox"/> |
|------------------------------|-------------------------------------|

## La communication

|                                 |  |
|---------------------------------|--|
| <b>Activités d'exploitation</b> | <input checked="" type="checkbox"/> NCP -Articles 16 (MRCC tasks), 35 (use of radio communication network), 39 (definition of VHF channels), 41-46 (alerting) and Annex I. |
|---------------------------------|--|

|  |                                       |
|--|---------------------------------------|
| <b>Relation gouvernement / industrie</b> | Not specifically addressed in the NCP |
|--|---------------------------------------|

|                          |   |
|--------------------------|---|
| <b>Relation publique</b> | <input checked="" type="checkbox"/> NCP - Chapter 9 (article 113) |
|--------------------------|---|

|                                 |                               |
|---------------------------------|-------------------------------|
| <b>Relation avec les médias</b> | NCP - Chapter 9 (article 113) |
|---------------------------------|-------------------------------|

## Gestion des déchets

|   |   |
|---|---|
| <b>Politique nationale concernant les déchets d'hydrocarbures</b> | <input checked="" type="checkbox"/> The NCP (articles 13 states that the task of the Headquarters is also making a decision on the methods and place for the disposal of recovered material while article 83 states that prior to the commencement of the shoreline clean-up operations the places for temporary storage and final disposal (one of preparatory activities) have to be defined and assigns the responsibility for conducting preparatory activities to the relevant "HQs for protection and rescue" within the local or regional authorities' to the Ministry responsible for environmental protection and the Ministry responsible for sea. Waste management is regulated by the Waste Act (OG 178/04, 111/06, 60/08) and other sublegal acts regarding waste categorisation, classification and management enacted according to the Waste Act |
|---|---|

|  |  |
|--|--|
| <b>Traitement / Installations de dépôt / Solutions</b> | <input checked="" type="checkbox"/> NCP does not predetermine sites for oily wastes (considered as hazardous waste) storage/treatment/disposal but all wastes have to be disposed according to the existing legal framework related to waste management. |
|--|--|

## Experts

|   |  |
|---|--|
| <b>Intégration d'experts internationaux dans l'organe de coordination</b> | <input checked="" type="checkbox"/> Article 14 of the NCP states that the Headquarters may also request support and expert advices from experts. Since article 14 does not specify 'experts' (national or international) it is considered that international experts could also be included in the work of the Headquarters. The list of such experts should be available at the HQ secretariat. |
|---|--|

## Demandes d'indemnisation

|   |  |
|---|--|
| <b>Base juridique des demandes d'indemnisation au niveau national</b> | <input checked="" type="checkbox"/> Maritime Code (OG 181/04, 76/07)   |
| <b>Réclamations inclus dans le plan d'urgence</b>                     | <input checked="" type="checkbox"/> Chapter 8 (articles 111 and 112)   |
| <b>Structure nationale chargée des demandes d'indemnisation</b>       | <input checked="" type="checkbox"/> Ministry responsible for maritime affairs (Ministry of Sea, Transport and Infrastructure) deals with claims. |

## Gestion des volontaires

|   |  |
|---|--|
| <b>Gestion des volontaires prise en compte dans le plan</b> | Article 30 of the NCP envisages the engagement of volunteers in shoreline clean up operations. Their management is not specifically defined except that they could be involved in clean up operation upon order of the Headquarters and County operational centres (COCs). |
|---|--|

## Protection de la faune

|  |  |
|--|--|
| <b>Mesures de protection de la faune (espèces protégées et autre faune marine)</b> | <input checked="" type="checkbox"/> NCP does not specifically indicate measures for fauna protection, but elaboration of sensitivity maps is defined as one of measures for preventing and restricting sea pollution and it will include overview of all protected natural resources (including among others and protected species). Further on, in the implementation of response measures, NCP determines priority areas for NCP implementation which includes protected sea areas (articles 81 and 94).<br><a href="#">Cliquez sur le lien pour accéder à la Fiche profils pays de Sea Alarm, fournissant des informations sur la protection de la faune dans ce pays</a> |

## Sanctions pour violations

|  |  |
|--|--|
| <b>L'Administration dispose des lois nationales nécessaires pour garantir l'application de sanctions d'une sévérité adéquate afin de décourager la violation des instruments internationaux auxquels l'État est partie prenante.</b> | <input checked="" type="checkbox"/>  |
| <b>Si oui, comment les violations sont-elles suivies et quelles sont les sanctions (par exemple, le type d'amendes) imposées?</b>  | Inspection procedure is described in Ordinance for carrying out inspection, after inspection if there is a violation of the maritime legislation inspector must or should issued (depending of the case) penalty, offence order or initiation of the offence procedure, to council for offences in concerned Harbor master office. Sanction regulations are prescribed in Maritime Law, Law on the gradual phasing-out of single hull oil tankers, Law on safety protection of merchant ships and international ports in the last part – Offences. |

### Inspections des navires

|  |                          |
|--|--------------------------|
| <b>Inspections périodiques de ses propres navires</b>  |                          |
| <b>L'Administration a les lois nationales nécessaires en vigueur pour prévoir des inspections et des détentions de navires afin d'assurer le respect des normes internationales de sécurité maritime et de prévention de la pollution, auxquelles l'État est partie prenante</b> | <input type="checkbox"/> |

## Inspections périodiques de ses propres navires

**Si oui, combien de navires sont inspectés chaque année et combien d'entre eux ont abouti à la détention du navire?** Number of inspected foreign ships in Croatian ports in last three year period is as follows: 2007 - 362 det. 20 2008 - 269 det. 35 2009- 273 det. 22

## Nombre de navires détenus par le contrôle par l'État du port au cours des 3 dernières années

**Nombre de navires détenus en vertu du Mémorandum d'entente de la Méditerranée** 3

**Nombre de navires détenus en vertu du Mémorandum d'entente de Paris**

**Nombre de navires détenus en vertu du Mémorandum d'entente de Tokyo**

**Nombre de navires détenus sous le Service des garde-côtes des États-Unis (USCG)** 4

## Inspections du contrôle par l'État du port

**Des inspections de contrôle par l'État du port sont effectuées dans vos ports**

**Si oui, combien d'inspections de la CFP sont effectuées chaque année?** Approximately 370

## Délégation de pouvoirs aux organisations reconnues (Bureaux régionaux)

**L'Administration a les lois nationales nécessaires, y compris les accords nécessaires, en vigueur pour déléguer le pouvoir aux Bureaux régionaux**

**Quelles procédures sont en place pour surveiller le travail des bureaux régionaux?** According Quality system we have procedure for monitoring RO in Statutory certification process for Croatian national ships

**Fournir une liste des bureaux régionaux auxquels la délégation de pouvoirs est accordée par le biais d'un tel accord.** Based on national Law, Croatian Register of Shipping (CRS) is RO until Croatia will become a Member State of the European Union.

## Enquêtes sur les accidents

**L'Administration dispose des lois nationales nécessaires pour mener les enquêtes requises sur les accidents**

**Nombre d'échouements signalés au cours des 3 dernières années** 2

**Nombre de collisions signalées au cours des 3 dernières années** 0

**Nombre d'accidents signalés ayant entraîné des incidents de pollution au cours des 3 dernières années** 0

## Mise en oeuvre de MARPOL

### Infractions à MARPOL

**L'administration dispose des lois nationales nécessaires pour garantir l'application de sanctions suffisamment sévères en cas d'infraction à MARPOL**

## Infractions à MARPOL

Si oui, comment les infractions sont-elles suivies et quelles sont les sanctions imposées?

Procedures for investigation under Marpol convention as carried out by PSC Officer, are followed as prescribed in Annex 2 of the Amendment PMOU. Violations of the Marpol requirements, if any, are prescribed in Law of the demesne and seaports, articles 116 and 114; maximum fine is app. 150.000 €, and 15.000€, respectively.
